HOTMATH.COM

St. Joe's has purchased a subscription to help your 6th — 8th grade child with math!

We know that almost every student struggles with math homework from time to time, and a parent or tutor is not always available to help.

and enter password: lab***

HotMath.com explains the actual, odd-numbered math problems, step-by-step, from your junior high math textbook.

Hotmath.com is an Internet service that explains homework problems from textbooks, so students can immediately see how to get the answers.

The password provides access to all step-by-step for Pre-Algebra, Algebra 1, and Geometry
